

All-weather canopy

Exterior

Project. aeronautec stands for high-quality textile architecture for use both indoors and outdoors. Whether you are looking for individual shades, sun canopies, partition constructions, light ceilings, spatial concepts or exhibition stands, aeronautec provides functional and customer-specific solutions.

Concept/Design. aeronautec develops and processes technical fabrics to create innovative and aesthetically-pleasing complete solutions.

Construction. These high-quality membrane roofs are produced following individual consultation

between the client and the aeronautec planning team. Your construction takes account of local climatic conditions such as prevailing winds and snowfall since the coverings are in use all year round. The extremely durable SEFAR® Architecture Fabrics made from 100% PTFE (Polytetrafluoroethylene) with 100% fluoride coating guarantees reliable UV and weather resistance over many years. SEFAR® Architecture Exterior Line is a material which makes design wishes and visions a reality. With a sound record and vast experience in textile tailoring, aeronautec is a leading player in the market.

Project/Location: Spanish residence
Engineering: aeronautec GmbH, Seeon, Germany, www.aeronautec.de
Implementation: aeronautec GmbH, Seeon, Germany, www.aeronautec.de
Sales/Distribution: aeronautec GmbH, Seeon, Germany, www.aeronautec.de
Fabric: SEFAR® Architecture **EL-65-T0, EL-35-T1, EH-35-T2** (previous descriptions AR 24-50, AR 24-25, AR 24-25-H)
