Project. "Standpunkte" TV studio for the media house Ringier AG, Switzerland. The talk-show "Standpunkte" is produced by PresseTV, who benefit from the combined journalistic input of the Basler Zeitung, NZZ, Ringier and Springer. Well-known presenters discuss themes covering politics, the economy, society and culture with distinguished guests.

Concept/Design. Sixteen name-bearing fabric screens form a simple backdrop for interesting discussions. The translucent, photometric Architecture fabric becomes a screen for changing projections such as additional pictures.

Construction. Suspended from the ceiling, the mounted fabric banners create a curtain effect. They are stabilized by hemstitching to a rod.

Project/Location: Ringier TV studio  
Architect: Ralph Knobelspiess  
Implementation/Printing: Sefar Architecture/Copy Art AG, St. Gallen, Switzerland, www.copy-art.ch  
Fabric: SEFAR® Architecture IL-80-OP
