Van Woert Bigotti Architects, Reno NV (US)

Glass manufacturer

Pulp Studio Inc., Los Angeles (US)

Foil

SentryGlas® supplied by Kuraray/DuPont

[ProjectInfo]

The State of Nevada required a new cafeteria for its staff at its Job Corp facility in Reno. The design team was determined to create an open and pleasant space to reduce energy costs while providing ample daylight.

The team chose SEFAR® Architecture VISION AL 260/25 fabric on the East and West facing facades to reduce solar impact and glare, while providing a progressive textile appearance from the exterior. The SEFAR® Architecture VISION fabric was chosen for its dual roll as an aesthetic and functional solution; Providing robust beauty and reducing solar gain and glare in the cafeteria area.
