Fabric

SEFAR® Architecture TENARA® Fabric 4T40HF

The client requested retractable weather protection for an open-air, five-story high courtyard space that needed to be more fully utilized. Inclement weather prevents full use of the space on a regular basis. Cartagena was founded in the 1500s by the Spanish. The site of the project lies within historic walls of designated a UNESCO World Heritage Site. This retractable canopy, using SEFAR® Architecture TENARA® Fabric 4T40HF, covers a courtyard and dining area of a historic hotel in the heart of Cartagena, Columbia. The EN-Fold retractable canopy for Hospitality Courtyard Area used for wedding and other large events extends 14 m (46') and is 22 m (73') wide.

The canopy with TENARA® Fabric 4T40HF provides guaranteed protection from inclement weather. This fabric is ideal for large-scale, retractable or nonretractable permanent structures, roofings, membrane structures, etc. It is permanently UV-resistant and colourfast, foldable, dirt- and waterrepellent, free of any plasticizers, no absorption of moisture, has high functional and aesthetic qualities thanks to optimized technical specifications for fabric manufacture and 38 % light transmission.
