f a b r i c & w e a t h e r

St. George Ferry Terminal Staten Island, New York (US)

[FactBox]

Fabric

SEFAR® Architecture TENARA® Fabric 4T40HF

Size/Quantity

Qty 12 @ 3.5 m x 3.5 m

Project/Location

St. George Ferry Terminal
Staten Island, New York (US)

Construction type

Umbrellas

Architect

FTL Design Engineering Studio, New York (US)

Assembly/Implementation

Eventscape, Inc., Toronto, Ontario, Canada (CA)

[ProjectInfo]

Multiple layers of SEFAR® Architecture TENARA® Fabric 4T40HF in a star pattern were installed around the center «cone» of each of the 12 light canopies. TENARA Fabric diffuses the light and expands in tension, cleanly billowing out above the light to fill in the canopy's frame. Together, the TENARA Fabric and the new light source create dynamic structures that are illuminated in both a beautiful and usable way.
