Hassell, Cox Architecture &
HKS Sport and Entertainment

Engineering

Arup, Perth (AU)

Assembly / Implementation

MakMax International Taiyo Trading PTE LTD
Sinagpur (SG)

[ProjectInfo]

The Stadium is located east of the Perth Central Business District, on the Burswood Peninsula.

This new 60,000 seat, world-class, multi-purpose Stadium hosts a variety of sports and entertainment events. The stadium was constructed to give the appearance of the roof «floating» above the façade, while a lightweight roof fabric that covers 85 % of seating can be illuminated to display home team colours and graphics.

The selected SEFAR® Architecture TENARA Fabric 4T40HF has high functional and aesthetic qualities thanks to optimized technical specifications for fabric manufacture and the high light transmission of min. 38 % generates an additional lightness by the inserts.
