Fabric solutions for Acoustic devices and components

Sefar offers a wide range of filtration media and highly industrialized fabrication capabilities.

Product Features

For the demanding and always evolving acoustics industry, precise and innovative filter media are of crucial importance. Sefar fabrics feature precise mesh openings, tightly controlled fabric properties, and provide protection against dust and liquids without compromising sound quality.

Material features

Brochure: Acoustic Solutions (PDF 733 kb)
sensitive electronic components

Also suitable for ventilation openings

Complies with REACH and RoHS

High-precision and uniform mesh openings

Strictly controlled and tightly tolerated air passage

Easy to process compared to steel mesh

Fabrication & Converting Solutions

Information on our fabrication capabilities can be found by following the link below.

Ribbons

Shapes / Stamped pieces

Tape and Dispenser products

Customer specific

Please call us for further information. We will also gladly send you fabric samples!

Further details can also be found in the brochure 'Audio Devices' under Downloads.
